Certifications

CPSA-F — Certified Professional for Software Architecture

Martín Campagnoli

Senior Frontend Developer

A senior software developer with over 10 years of experience, specializing in Angular and TypeScript to build scalable, maintainable web applications. Proficient in modern front-end development with a strong emphasis on clean, testable code and quality-driven practices. Experienced in leading teams, mentoring developers, and fostering collaboration. Always eager to grow, share knowledge, and take on new challenges.

Work experience

Senior Front-End Developer

January 2026

Dialog BV, Utrecht

Senior front-end developer operating in a hybrid technical-lead role, driving large-scale Angular migrations, shaping the design system, and enforcing code quality and engineering standards across teams. Combining hands-on expertise with strategic direction, guiding architecture decisions, mentoring developers, and ensuring the front-end ecosystem stays modern, consistent, and maintainable.

Senior Front-End Developer

October 2023
January 2026

Sogeti, Utrecht

- Placed in Rabobank as external senior frontend Angular (v20) developer
- Collaborated with UX designers to enhance usability and improve user engagement.
- Mentored junior developers, conducting code reviews to ensure best coding practices.
- Integrated RESTful APIs to enable seamless data flow between frontend and backend.
- Conducted unit testing and debugging to ensure high-quality, maintainable code.
- Developed reusable components to enhance application scalability and performance.

Lead/Senior Front-End Developer

October 2021
September 2023

Incentro, Rotterdam

- Worked on several e-commerce projects mostly with Angular apps.
- Coordinated dev teams while coaching colleagues in different teams as well.
- Mentored junior developers, leading to an increase in team efficiency and skills.
- Optimised application performance, reducing a significant load time via code refactoring.
- Collaborated with back-end teams to integrate APIs, enhancing application functionality.

Senior Front-End Developer

January 2021
September 2021

Alphin, Berlin

- Worked on several applications using Angular (v12).
- Also took lead and mentoring tasks, while working closely with the Head of IT to improve the development process.
- Collaborated with designers to implement user-friendly interfaces and enhance UX.
- Conducted code reviews, ensuring adherence to best practices and high code quality.

Senior Front-End Developer

July 2017
December 2020

Canto, Berlin

- I was in charge of web applications built in plain JavaScript, jQuery and AngularJS v1.6+ with Components.
- In this particular app I led the migration to Angular(v7).
- I was the only senior front end dev reporting directly to the CTO, also taking lead and mentoring tasks.
- I have introduced linters such as JSHint and unit testing using Jasmine and Karma to the project to enforce better code quality.
- I was also doing some research and PoC in React to see if it fits in one of our web applications that lacks frameworks.
- We used Scrum methodology, so I actively participate in the estimation and develop of the app, also with close communication with the product owner and the rest of the team

Front-End Developer

December 2013
April 2017

Accenture, La Plata

- It was my responsibility to develop the web applications with my team using Scrum as methodology within Accenture for internal projects and external projects for clients.
- This included being in charge of Front-End side of the applications, and also doing coaching, giving brown-bags and courses about AngularJS, the framework we selected to build those apps, and also about Jasmine, the BDD unit testing framework, to the rest of the team, and also to other teams within Accenture Argentina.
- We used Scrum methodology, so I actively participate in the estimation and develop of the app, also with close communication with the product owner and the rest of the team.
- Team cells from 4 to 10 people from all the globe.
- Worked on 5 different projects/apps so far.
